

Tackling communication as a barrier to learning

Ensuring that

Advanced Bilingual Learners

achieve their potential.

"Every Bilingual Learner Matters"

- So often Schools are excellent at providing support for EAL pupils who are new to English. Induction programmes, in-class and withdrawal support are increasingly well provided.
- **However the temptation to overlook the Advanced Bilingual Learner is not one to which we should succumb.**
- Bilingual pupils who converse as first language English speakers are often not considered to be due the support and attention which academically they desperately need.
- At St Marylebone School we have a high percentage of advanced bilingual learners. **Our aim is to develop support appropriate to them; make sure they are getting the highest grades they deserve and to ensure that the neglect of hidden language and communication issues does not interfere with their achievement.**

10 am to 3 pm

Cost £69 (including lunch)
